

## Urgent Hazmat Appeal Services

ALKEMIST provides professional Urgent Hazmat Appeal Services for Amazon sellers, importers, exporters, private label brands, and international marketplace businesses dealing with dangerous goods (hazmat) review issues, listing restrictions, or classification delays.

### Service Overview

Urgent Hazmat Appeal is delivered as a global regulatory service with country-specific mapping available when needed. The service focuses on urgent review support, exemption sheet assistance, SDS review, dangerous goods clarification, and marketplace appeal preparation.

### Common Hazmat Challenges

- Amazon dangerous goods review delays
- Listing suppression due to hazmat classification
- SDS or exemption sheet rejection
- Carrier transport restriction issues
- Battery and chemical product review delays
- Marketplace documentation inconsistencies
- Incorrect dangerous goods identification

### Amazon Dangerous Goods Review

Amazon may request either an SDS (Safety Data Sheet) or exemption sheet when dangerous goods information is incomplete or requires verification. Products with batteries, aerosols, chemicals, or flammable materials may undergo additional review.

### How ALKEMIST Supports Clients

- SDS/MSDS technical review
  - Exemption sheet structure assistance
  - Marketplace appeal preparation support
  - Hazard classification clarification
  - Label and warning review
  - Technical document alignment
  - International marketplace compliance preparation
- 

## International Marketplace Coverage

- Amazon USA
  - Amazon UK
  - Amazon EU
  - Amazon UAE
  - Amazon Saudi Arabia
  - Amazon Canada
  - International carrier and transport support
- 

## Technical Documents Reviewed

- Safety Data Sheets (SDS/MSDS)
  - Exemption Sheets
  - Product Specifications
  - Hazard Communication Records
  - Packaging and Label Information
  - Ingredient or formulation data
- 

## Why Choose ALKEMIST

ALKEMIST combines regulatory understanding with marketplace-focused compliance support to help businesses improve documentation readiness, reduce delays, and respond effectively to hazmat-related restrictions.
